Hello Sook, and Stephani,

I wanted to follow up our phone call with this email, so that you have all the information you need to make an informed decision. I understand that you are curious about how much the waivers of operation would cost, and here is the breakdown of what that would look like.

The first waiver for 2022 would be $625 + $1000 late fee = $1625
The second waiver for 2023 would be $1250 + $1000 late fee = $2250
The total of both waivers for 2022 and 2023 would be $1875 + both late fees = $3875 total for 2022 and 2023

I will reach out to you on Wednesday (10/9/24) of next week if I don't hear from you before then to check in and see where you're at.

Subject: Renewal of license #3293 DBA Second Floor Restaurant

Hello Sook, and Stephani,

I am trying to work both the renewal and the transfer applications of license #3293 DBA Second Floor Restaurant together just like I spoke to Stephani about. I have sent an email to the applicant; Melissa Berns regarding the corrections needed on the transfer application. I am looking forward to her response so that I may work with her to hopefully get the transfer and the renewal on the agenda for the next board meeting on November 19, 2024. I would like to talk about the renewal application a little bit more and that is why I'm emailing both of you.

I was under the impression that the Second Floor Restaurant was not operating for a few years now, however the renewal application that was submitted shows that the license was operated to meet the minimum requirements of 240 hours for both the year 2022 and 2023. The AB-33: Restaurant Receipts Affidavit also shows that the license operated to sell some alcohol and food for both years as well. I want to make sure that this reflects how the license and business were operated since we have already discussed how under the microscope you are feeling lately. If both the renewal and the AB-33 are accurate, I will proceed on. If you feel that this may have been in error, there is the option to utilize AB-29: Waiver of Operation forms. These completed forms allow you to pay a fee for the year(s) that the license may not have operated to meet the minimum hours of operation required and in paying that fee you have satisfied the requirements of maintaining your license. I see where this license utilized these waivers for the years 2020 and 2021 due to covid. Those waivers do not count against the license. You still have two waivers available to utilize that can be approved administratively (within the office). The reason I am bringing this up as an option is because I don't want to take anything to the board for consideration that might hinder the possibility of the license getting transferred. The renewal needs to be approved before the transfer can be considered, but it does look better for them both to go before the board at the same time if possible.

I would be more than happy to talk with you both on the phone about this if you have any questions. My direct line is 907-269-8993.
