Anchorage, AK 99501-3510

To LBC Staff,

I completely support the City of Dillingham's petition to annex parts of Nushagak Bay and Wood River--these waters and subsequent tax revenues should have been part of the city years ago. Since the expectation is that Dillingham will provide services to the fishing industry, than it is completely appropriate for the city to have access to income generated by the fishing industry. This annexation is of utmost importance to generate revenue for a city that has few revenue generating options.

Sincerely,

Lisa Hagblom
