Meeting ID: 213 459 368 232

Passcode: eqrzLw

12:00 p.m. Call to Order

Declarations of conflicts of interest

The purpose of the Work Group is to:

- Identify “lifestyle enhancement” services that have a medical nexus and are currently performed or likely to be performed outside of a medical clinic or without appropriate supervision.
- Identify existing statutes and regulations that govern current requirements for training, licensure, and supervision of these procedures.
- Clarify how licensing boards could—jointly or in part—explain existing statutes and regulations that would help the public and licensees understand how these procedures should be safely administered according to the current laws of the state.
- Suggest changes in statute that would allow defensible and transparent pathways forward for appropriately trained and supervised individuals to provide these services without imposing undue economic or regulatory barriers.
- Carry forward work group updates and work products to the member boards for their subsequent review and action.

12:10 p.m. Public comment: Each speaker will be limited to three minutes. To offer written comments, please email sara.chambers@alaska.gov for distribution to the group.

12:30 p.m. Review esthetics procedures definitions, considerations, and FDA and MoCRA requirements
Guest presenter: Susanne Schmaling, Esthetics Council

1:00 p.m. Review updated matrix and issues list

- IV Hydration
 - Review answers
 - Check understanding
 - Establish consensus or ask for more resources
- Advanced Esthetics
 - Review answers

- Check understanding
- Establish consensus or ask for more resources
- Cosmetic injectables (if time allows)
 - Review answers
 - Check understanding
 - Establish consensus or ask for more resources
- Clinics, retail locations, and mobile locations (if time allows)
 - Review answers
 - Check understanding
 - Establish consensus or ask for more resources

1:45 p.m. Assign next steps for October 31 meeting (10am-12pm) and schedule future meetings

- Continue review and research of advanced esthetics and IV hydration procedures and issues presented
- Bring to the October 31 meeting any remaining questions or concerns with the goal of making a recommendation to boards to answer the following questions:
 - Under current law pertaining to esthetics:
 - What procedures and modalities can a licensed esthetician perform without additional training or education?
 - What procedures and modalities require direct supervision by a medical professional, and how is that defined?
 - What procedures and modalities may only be performed by a medical professional, and how is that defined?
 - What special training, if any, is required of any person performing these services?
 - Under current law pertaining to IV hydration:
 - What are the standards for evaluating, diagnosing, and treating a person with IV fluids, including additives?
 - Who may perform these activities?
 - Who may “craft” an IV hydration product on site (i.e. compounding)?
 - What type and level of supervision is required?
 - What special training, if any, is required?
 - What are the facility safety and sanitation requirements for IV hydration clinics, including mobile locations?
 - Under current law pertaining to Botox:
 - What are the standards for evaluating, diagnosing, and treating a person with Botox?
 - Who may order and/or administer Botox? What special training, if any, is required?
 - Do any persons allowed to administer Botox require supervision? By whom?

Goals for the following meeting may include:

- Identify opportunities for boards to adopt regulations or seek statutory changes to solve the problems presented

1:50 p.m. Final thoughts

2:00 p.m. Adjourn
