**6. Workgroup Composition** **9:20 AM**

**A. Definition of a Workgroup**

Soliciting Public Input

When a board identifies the need to propose a regulation to implement, interpret, or make specific a state statute, the board should begin organizing its collective thoughts on the matter at a publicly noticed meeting. If the subject matter is highly technical or complex, it may be helpful for the board to form a public working group from among its members. That group may engage in fact-finding for the purpose of sharing what it has learned with the entire board at an appropriate meeting.
