FROM: Sonya Irwin, Licensing Supervisor RE: 16812 Raven's Perch in

- (vi) 40 rental rooms if the population is 25,001 — 50,000; and
- (vii) 50 rental rooms if the population is greater than 50,000; or

(B) an airport terminal; and

(2) approve the renewal or transfer of ownership of a beverage dispensary tourism license initially issued under (1) of this subsection or initially issued as a beverage dispensary license under AS 04.11.400, as that section read on the date of the initial licensure, if the

(A) holder of the license operates a hotel, motel, resort, or similar business relating to the tourist trade that

(i) has a dining facility on the licensed premises or kitchen facilities in a majority of its rental rooms; and

(ii) maintains at least the minimum number of rental rooms that the hotel, motel, resort, or similar business had at the time of initial licensure or that were required at the time of initial licensure; or

(B) licensed premises are located inside an airport terminal.

Applicable regulation: 3 AAC 305.325 Beverage dispensary tourism licenses. (a) For the purposes of AS 04.09.350(c)(1), an applicant for the issuance, transfer of location, or renewal of a beverage dispensary tourism license shall include a description of how the requested license encourages the tourist trade by promoting the construction or improvement of a hotel, motel, or business as set out under AS 04.09.350(c)(1) or an airport terminal as set out under AS 04.09.350(c)(2).

(b) For purposes of AS 04.09.350(c)(2)(A), "operates" means the holder of the beverage dispensary tourism license controls the functioning of the hotel, motel, resort, or similar business relating to the tourist trade, unless the license was approved before January 1, 2024.

**NOTICE OF HELIPORT AIRSPACE ANALYSIS DETERMINATION
 ESTABLISH PRIVATE USE HELIPORT
 NO OBJECTION**

The Federal Aviation Administration(FAA) has conducted an aeronautical study under the provisions of Title 14 of the Code of Federal Regulations, Part 157, concerning:

RE: *(See attached Table 1 for referenced case(s))*

Table 1 - Letter Referenced Case(s)

ASN	Prior ASN	Heliport Name	Description	Location	Latitude (NAD83)	Longitude (NAD83)	Heliport Elevation (feet)
2023-AAL-80-NRA		Alaska Glacier Lodge	LAP ASN # 2023-WSA-28-LAP	Palmer, AK	61-26-04.00N	148-45-56.60W	342

We have completed an airspace analysis of the proposed private use airport. As studied, the location is approximately 13 nautical miles SE of Palmer, AK.

- Flight Standards conducted a virtual evaluation of this site in accordance with FAA Order 7400.2N, paragraph 11-3-3. FAA Advisory Circular 150/5390-2D was referenced while conducting this analysis. Flight Standards has no objection to this helipad and makes the following recommendations: We recommend the heliport meet and maintain the standards of FAA Advisory Circular 150/5390-2D Heliport Design. We also strongly recommend the proponent reexamine obstacles in the vicinity of the approach/departure paths on an annual basis.

Our aeronautical study has determined that the subject private use heliport will not adversely affect the safe and efficient use of airspace by aircraft. Therefore, we have no objection to the proposal.

This determination does not mean FAA approval or disapproval of the physical development involved in the proposal. It is a determination with respect to the safe and efficient use of airspace by aircraft and with respect to the safety of persons and property on the ground. In making the determination, the FAA has considered matters such as the effect the proposal would have on existing or planned traffic patterns of neighboring airports, the effects it would have on the existing airspace structure and projected programs of the FAA, the effects it would have on the safety of persons and property on the ground, and the effects that existing or

RECEIVED
 JAN 22 2025

proposed manmade objects (on file with the FAA) and known natural objects within the affected area would have on the heliport proposal.

The FAA cannot prevent the construction of structures near a heliport. The heliport environs can only be protected through such means as local zoning ordinances or acquisitions of property in fee title or aviation easements, letters of agreement, or other means. This determination in no way preempts or waives any ordinances, laws, or regulations of any government body or agency.

Please complete, sign, date, and return the enclosed Airport Master Record 5010 Form. Instructions for completing the form can be found online at <https://www.faa.gov> in Advisory Circular 150/5200-35, "Submitting the Airport Master Record in Order to Activate a New Airport" (current version). This action will ensure your heliport is activated and assigned a private use location identifier. Please indicate on the Airport Master Record Form if you desire to have your heliport charted. Please be advised that charting of private use heliports is not guaranteed. Additionally, if charted, there is no guarantee your heliport will remain on FAA published charts. Charting of private use heliports relies heavily on landmark value and chart clutter. The inclusion on a chart may take several charting cycles and does not coincide with the issuance of a location identifier.

In order to avoid placing any unfair restrictions on users of the navigable airspace, this determination is valid until 05/06/2023. Should the Airport Master Record 5010 Form not be returned by 05/01/2023, an extension of our determination should be requested by 05/01/2023.

Be advised, in accordance with 14 CFR Part 157, any construction, alteration to, or abandonment of the subject heliport requires notice to the FAA for aeronautical review. Notice for these actions can be given using FAA Form 7480-1, "Notice for Construction, Alteration, and Deactivation of Airports".

If you have any questions concerning this determination or completion of the Airport Master Record 5010 Form, please contact me at venus.larson@faa.gov or at (907) 271-3813.

Sincerely,

Venus Larson
